**EP&M International wins MarCom Award for AngioDynamics' exhibit**

**Albany** – EP&M International underscored its position as a world leader in exhibit design with five 2009 MarCom Awards, including an honorable mention for AngioDynamics' display at SSO in Phoenix, AZ. AngioDynamics is a leading provider of innovative medical devices used by interventional radiologists, surgeons, and other physicians.

**ABOUT EP&M INTERNATIONAL**

EP&M designs, builds and rents custom exhibits worldwide. It is an award-winning trade show support firm, providing comprehensive services to a growing client list, including GE Energy and AngioDynamics. Since 1991, EP&M has completed projects at more than 200 venues in over 30 countries outside the United States, working with select in-country labor to exceed customer expectations on quality while controlling costs. Services are all-encompassing – from design and build to shipping, set-up, and complete show management on site.

In addition to working on highly creative and unique exhibit designs in exotic locations, EP&M is the Capital District/Saratoga/Upstate New York authorized Nomadic Display<sup>®</sup> dealer for portable and modular exhibit properties. You can learn more about sales and services at [www.epmexhibits.com](http://www.epmexhibits.com).
